

## PRESS RELEASE

### **GMSTEK, LLC and National Jets Announce Agreement for X-1FBO™ System** *Advanced Management and Payment Processing System for Fixed Base Operators (“FBOs”) Being Implemented at National Jets Air Center*

CORAL GABLES, FL and FORT LAUDERDALE, FL, November 2 – GMSTEK, LLC (“GMSTEK”) and National Jets Inc. (“National Jets”) today announced that they had reached an agreement for the X-1FBO System, an advanced, cloud-based, mobile and desktop-enabled management and payment processing system for Fixed Based Operators, to be implemented at the National Jets Air Center FBO.

X-1FBO is designed to mimic real world operational work flow, while automating it. Each customer has a private portal for viewing the status of customer requests, invoices, fuel tickets, and any related invoices. X-1FBO includes easily configurable dashboards, enabling real time access to information for real time decision making. Information flows up and down the chain according to need to know and management permissions. Key modules include Fuel Management, Customer Service, Invoicing and Payment, Dispatch Management, Quality Control, Request on the Fly, Ramp Management and Line Service Technician Notification.

Said Samuel Robbin, President & CEO of National Jets, “Our growth is dependent on efficient, reliable customer service, streamlined operations and real time access to important data for prudent, forward looking decisions. After reviewing the options, we determined that X-1FBO offers the breadth, depth and scalability necessary for us to achieve our goals for growth and customer service second to none.”

According to George Reyes, Founder and CEO, “Our X-1FBO platform will become the standard in the industry, because we have heard our customers, understand their problems and have created a solution that works and scales. Continued Reyes, “We are committed to providing National Jets with the best product, the best service and constant innovation to assure that X-1FBO continues to be the leader. We look forward to a long and successful partnership.”

#### **About GMSTEK**

GMSTEK is an IT company focused on the General Aviation industry. With a broad gauged management team that includes industry veterans, innovative system designers and financial experts, GMSTEK is ideally positioned to serve General Aviation. X-1FBO is a high tech, secure, comprehensive, end-to-end system that has been designed to enable FBOs to operate efficiently and to drive higher margins and growth. GMSTEK has a metrics driven management style, customer-centric focus, stress on best in class software, and a strong commitment to remaining ahead of the curve with the latest technology and a committed team.

#### **About National Jets**

Founded in 1947, National Jets is one of the most respected organizations in General Aviation, offering FBO, air charter, air ambulance, aircraft management and real estate management services. National Jet Air Carrier

has been named a Top Ten FBO by Pro Pilot Magazine for the last 14 years in a row. It operates a facility with 22,000 square feet of hangar space and ramp parking for private and military aircraft. Crew rest facilities, conference room, flight dispatch and on-line weather services (WSI) are available 24-hours. There is an on-site fuel farm and a Part 145 certified aircraft maintenance and avionics repair station (JKIR235M).
